Attachment A - Pre-College Summer Programs: Program Director - Job Description

The Program Director is responsible for all academic oversight of a pre-college program, including: recommendation of additional personnel, development of messaging and marketing content for various audiences (e.g., parents and high-school students), as well as service as the point person for work with other constituents (e.g., housing, enrollment management, etc.) in planning for and execution of their summer pre-college program. There will be one program director for each pre-college program.

Responsibilities include the following:

1. Oversee all academic planning for the pre-college program. This includes creation of syllabus, hiring instructors for each day of the program, recruitment and recommendation of a TA for the duration of the program, securing classroom/teaching space for the duration of the program, ensuring all necessary supplies/technology/texts are secured for the program, and any other academic planning to ensure a positive and appropriate learning experience.
2. Oversee all assessment of student learning, which may include a final written (or graded) assessment given to all students or assessment of any assignments or projects.
3. Create content for promotional and marketing materials (working with promotional/production team), which may include detailed written program descriptions, written content for promotional videos, and letters/emails to send to parents and students enrolling in the program. Serve as “face” of the program for external promotions. Work with the admissions team on any criteria for admissions to the program. Be available to review applicants that may need additional academic review.
4. Communicate as needed with prospective parents and students who are interested or enrolled in the program. Be available to answer emails, calls, etc., about the academic component of the summer pre-college program.
5. Attend regular planning meetings leading up to pre-college, which includes meetings with residential life team, admissions team, marketing team, academic administrators, and other program directors.
6. Serve as lead for the introductory academic session (Sunday afternoon – approximately 1 1/2-2 hours) and the final presentation session (Saturday morning – approximately 60-90 minutes). Plan each session and serve as the “instructor” for each.
7. Be available and on campus throughout the duration of the program. (Note: program directors may also serve as instructors in the program and be paid accordingly for their teaching responsibilities. It is advised that program directors not serve as the sole instructor for the course, as this may make administrative oversight impossible).
8. Plan a day “trip” for the program. This includes creating the daily schedule, coordinating site visits (ex. corporate offices, cultural sites, events, screenings, etc.). Work with the procurement team to secure transportation (buses or trains) and food needed for the trip.

9. Resolve any academic issues that arise during the course of the program. Be a point person to communicate with residential life on any issues with students within the program. Be a point person for communication with parents as appropriate during the program. Be a point person to talk with any students who are experiencing academic challenges throughout the program.
10. General responsibility of other academic and scheduling issues throughout the course of the program. Operate within the fiscal boundaries of the program and other general policies of Montclair summer pre-college.
